King Price[™]
INSURANCE

Underwritten by: King Price Insurance Company Ltd.
King Price Insurance Company Ltd is a licensed non-life
insurer and registered financial services provider.
(Reg no. 2009/012496/06 | FSP no. 43862)

MOTOR FLEET SECTION

(LDVS, PASSENGER VEHICLES & MOTORCYCLES)

The Motor Fleet section provides cover for the loss of or damage to insured fleet vehicles, including light delivery vehicles (LDVs), passenger motor vehicles and motorcycles, arising from accidents, fire, hail, or theft/hijack.

This cover is designed for businesses operating vehicle fleets for day-to-day commercial use, including but not limited to:	
• Corporate and commercial vehicle fleets.	
• Sales, service, and support fleets.	
• Delivery and distribution fleets (LDVs not exceeding 3,500 kg GVM).	
• Passenger vehicle fleets used for business purposes.	
• Companies transporting their own goods or personnel.	

Fleet insurance enables multiple vehicles to be insured under a single policy, offering centralised administration, consistent cover, and cost efficiencies compared to insuring vehicles individually.

Benefits automatically included in the VAPS Fleet Policy	
• Credit Shortfall	Up to 15% of Vehicle Value
• Contingent Damage	
• Emergency Expenses	R15 000
• Fire Brigade Charges	R20 000
• Import Duty	
• Loss of Keys	R20 000
• Repatriation and Cross Border Towing	R50 000
• Search and Recovery Charges	R25 000
• Temporary Removal	R10 000
• Wreckage Removal	R10 000
• Car Hire Costs	R500 per day max 30 days
• Window Glass	R20 000
• Clothing and Personal Effects	R5 000
• Loss of Fuel (accident only)	R1 500
• Signwriting	R10 000
• Cross Border Riot and Strike	R50 000
• Radio/ Sound Equipment	R20 000

Vehicle Classification Categories

- **Private motor vehicles (PMV)**
– Including sedans, station wagons, SUVs, LDVs, motorcycles and double cab bakkies.
- **Light delivery vehicles (LDV)**
– Vehicles not exceeding 3,500 kgs GVM.
- **Heavy & Medium Commercial Vehicles (HCV)**
– Goods carrying vehicles exceeding 3,500 kgs.
- **Trailers**
– Non-self-propelled goods carrying bodies drawn by any vehicle.
- **Buses & Coaches**
– Vehicles with more than 16 seats.
- **Special types**
– Self-propelled forklifts, road construction vehicles, cranes, construction vehicles with plant permanently attached.
- **Agricultural vehicles**
– Tractors and equipment used for agricultural purposes.

Cover Options

- Comprehensive cover on Commercial vehicles, PMVs, LDVs and special types.
- Third Party Fire & Theft only.
- Third Party only.

Optional Extensions

- **VAPS FLEET 24/7 Assist – Commercial Roadside Assistance:**
 - Mechanical Breakdown Towing to the nearest repairer (Annual Limit of R 5000 per vehicle).
 - Tyre Replacement Assistance (Up to R1 000 per incident).
 - Lockout/Replacement Key Assistance (Up to R1 000 per incident).
 - Battery Assistance (Up to R1 000 per incident).
 - Winching/Extraction Service.
 - Vehicle Protection Service.
- **Personal Accident Cover for Driver:**
 - R100 000 for Death and Permanent Total Disability.
- **Extended Motor Third Party Liability – up to R7 500 000**
- **Excess Reducers:**
 - Own Damage, Theft/Hijack, Third Party, Windscreen and Penalty Excesses.
- **Loss of Use Cover**

GOODS IN TRANSIT (GIT) SECTION

Goods in Transit Insurance, sometimes referred to as GIT, insures goods against loss or damage while being moved from one place to another. At VAPS FLEET, we provide cover for the following general categories:

1. Professional transport companies transporting goods on behalf of their clients for compensation.	2. Part-time transport contractors, such as farmers, usually transporting their own goods but occasionally transporting goods for third parties for compensation.	3. Commercial and agricultural clients transporting their own goods in or on their own vehicles, with a specified maximum load limit per vehicle or with a limit per consignment.
---	---	---

Cover Options (Maximum limit of R1 000 000 per load)
- All Risks – The client is covered for the loss of or damage to goods in transit that belong to them or for which they are responsible. Cover applies whether the cause is an accident or any other type of incident. - Fire, explosion, collision, derailment and overturning only. - Fire, explosion, collision, derailment, theft and hijack only.

Benefits Included in the VAPS Fleet GIT Policy
- First Loss Basis – This benefit negates the calculation of average with regards to VAPS Fleet policies. - Driver Fidelity cover included. - Territorial Limits – Africa, South of the Equator. - Salvage, clean-up and load recovery costs – up to R20 000 for non-hazardous goods. - Fire extinguishing charges. - SASRIA.

Optional Extensions
- GIT Basic Excess Reducer. - GIT Theft/Hijack Excess Reducer. - Cross-Border Riot and Strike cover.

General Exclusions
- Wear and tear or gradual deterioration (unless following an incident or accident for which you can claim). - Mechanical, electronic or electrical breakdown, failure, breakage or derangement (unless following an incident or accident for which you can claim). - Goods not properly secured or covered with canvas whilst in transit. - Loss, delay, loss of market, depreciation or changes brought about by natural causes (unless following an incident or accident for which you can claim). - Any accident where the insured motor vehicle is not roadworthy or carrying a load that exceeds its capacity (unless otherwise stated on the policy schedule). - Incidents where the client or someone with their consent or knowledge is under the influence of intoxicating liquor or drugs, driving without a valid licence or professional driving permit where required. - Loss of or damage to cash, bank and currency notes, coins, bonds, coupons, stamps, negotiable instruments, title deeds, manuscripts or securities of any kind. - Theft from an unattended motor vehicle (subject to the exceptions and conditions stated in the policy schedule). - Inherent vice or defect, vermin, insects, damp, mildew or rust. - Dishonesty by the client, their principal, partner, member, director or employee acting alone or in collusion (this exclusion does not apply to any driver or driver assistant). - Detention, confiscation or requisition by customs or other officials or authorities. - While in transit by sea or inland waterway. - Breakdown of refrigeration equipment. - Please refer to the full list of exclusions in the Policy Wording.

VAPS FLEET 24/7 ASSIST

COMMERCIAL VEHICLES, PMVS & LDVS

Roadside Assistance and Accident Management

24/7 Contact number: 066 251 3044

The VAPS Fleet Assist 24/7 Call Centre provides immediate access to a team of dedicated case managers, together with a national network of accredited assistance service providers who will assist with roadside emergencies. Services are only applicable when requested through the Call Centre. Parts, repairs, maintenance services and other goods or services are not included unless specifically stated.

This product does not constitute an insurance policy and the Call Centre does not indemnify the member against losses, liability, expenses or damages suffered. All limits stated below are covered by the Insurance Policy attached to this Roadside Assist benefit. Where a vehicle breakdown results in the insured or policyholder being stranded, the Call Centre will arrange one or more of the following services:

VAPS Fleet 24/7 Assist - Commercial Roadside Assistance

- Mechanical Breakdown Towing to the nearest repairer (Annual Limit of R 5000 per vehicle).
- Tyre Replacement Assistance (Up to R1 000 per incident).
- Lockout/Replacement Key Assistance (Up to R1 000 per incident).
- Battery Assistance (Up to R1 000 per incident).
- Winching/Extraction Service.
- Vehicle Protection Service - Where necessary, the Call Centre will dispatch a police or runner vehicle to guard the vehicle and load until the roadside assistance or tow truck arrives. Subject to availability in the specific area.
- Accident Management - In the event of an accident, VAPS Fleet 24/7 HCV Assist will arrange towing to the nearest approved repairer. The cost of the accident tow will be covered by the Insurance Policy if a claim is registered. If no claim is registered, the insured will be liable for the cost.

VAPS FLEET EXCESS STRUCTURE

No. of persons per vehicle covered	2 (Two)	N/A
24-hour Medical Evacuation	Arranged through VAPS Call Centre	N/A
Premium (InclVAT)	R45 per vehicle per month	

VAPS FLEET DRIVER TRAINING

ARRIVE ALIVE WITH MASTERDRIVE
Specialised Corporate Advanced Driver Training

VAPS HCV in association with MasterDrive offers our clients industry accredited driver training through their Master trucker program.

The training can include the following courses:

- | | |
|---|----------------------------|
| • Defensive driving – HCV and commercial | • HCV Roll Over Prevention |
| • Medium commercial vehicle (MCV) driver training | • Driver Assessments |

MasterDrive is a result-driven, driver training organisation that engages with and assists companies in managing driver risk interventions. The company was established in 1999 and became part of the RAC Group (established in 1997). The company has a dedicated team of professional, internationally accredited instructors delivering training on a range of programs. These encompass the full spectrum of vehicles – from motorbikes to cars to buses and trucks.

Areas of training:

Liquid and dry bulk	Solid loads	The MasterTrucker
Heavy-duty vehicle roll overs and the consequential damages, particularly when fuel and other dangerous goods are involved, can be massive. This dictates that practical training, for drivers to better understand critical factors, is essential.	Solid loads require a specific skill set to prevent costly roll overs. Drivers need to adapt to changing loads and adjust driver behaviour to avoid roll overs.	This roll over truck is a fully equipped tanker with outriggers. This allows drivers to feel at what point a roll over can occur without going over. Drivers also learn about factors such as the Centre of Gravity (COG) and centrifugal forces and how they can significantly impact the driver's risk of roll over.

MasterDrive's, one-of-a-kind training in Africa, has been proven to save up to R80 million in one fleet. This alone motivates corporations to embrace the training techniques. Please contact Abrie Olivier for more information regarding the Driver Training program on info@vapshcv.co.za

VAPS FLEET RISK & BUREAU SERVICES

WHEN THEY'RE DRIVING WE'RE MONITORING.

VAPS Fleet Risk & Bureau Service is a policy add-on that assists our clients with fleet control room activities backed by highly proficient hindsight, insight and foresight data analytics and reporting for the streamlining of a fleet operation. Dedicated fleet controllers assist with monitoring of vehicle movements, incidents, alerts and alarms and shares this real-time information with the VAPS Fleet Assist 24/7 Accident Centre. Our highly experienced fleet consultants interrogate and interpret vehicle data to provide the insights and actions needed for future cost reduction and operation improvement.

FEATURES:

Driver Monitoring

- 24/7 Driver monitoring: speed, harsh braking and acceleration, unscheduled stops, vehicle abuse.
- Optimising driver safety and productivity.

Real-time Route Monitoring

- Fleet management software analysis.
- Eyes-on-screen route monitoring assistance.
- Dedicated fleet controllers assigned to clients.
- Direct communication with the brokers and clients.
- Geozone mapping and adherence.
- Fuel consumption monitoring.
- Daily health checks.

Data Analytics

- Comprehensive data analysed and simplified for your convenience.
- Individual driver scorecards and risk profiling.
- Rich fleet analytics data: On-site visits and duration count, driver behaviour, etc.

Consultancy Services

- Highly trained fleet consultants visit clients on-site to customise the reporting around their unique operation.

24/7 Emergency Response Centre

- 24/7 Fleet monitoring.
- Emergency response linked to the VAPS Fleet 24/7 Call Centre.
- Panic alarms.
- Tamper alarms.
- Stolen vehicle recovery support.
- Vehicle immobilisation (Illegal movement prevention).
- Helicopter/Air response (Available to Autotrak clients at an additional cost).

Reporting

- Detailed weekly and monthly reports tailored to your needs sent to brokers and clients.
- Variety of powerful reports available at your disposal: productivity, safety, travelling time, KM usage, after hours, driver behaviour, POI visits, EXCO monthly summary, and many more.

All this translates to financial savings and greater efficiencies in managing, operating and maintaining your vehicle fleet.

POLLUTION/SPILLAGE COVER

BY ENVIROSURE

Envirosure offers a comprehensive environmental policy for customers transporting hazardous goods and potential pollutants. Over the years this cover has been perfected to offer the most value to the Insured. This cover is designed to protect transporters of dangerous goods and potential pollutants from the extensive costs of pollution and rehabilitation following an environmental incident. Potential pollutants can include items as diverse as food products, paint and detergents. Policyholders automatically qualify for a Service Level Agreement with Spill Tech. This ensures that any cleanup will be handled by a leading South African spillresponse company.

VAPS FLEET in partnership with Envirosure can offer clients the following Envirosure products added to our policy schedules

- Envirosure Spill Protect Plan.
- Transport Cleanup Policy.
- Value-added solutions like Side Tank spillage and Excess Solutions.

The Spill Protect Plan by Envirosure

Envirosure is proud to offer its customers a revolutionary product designed to simplify and expedite all cleanup and insurance aspects related to an environmental spill. Thanks to our recent merger with Spill Tech, we can now offer an industry first: the Spill Protect Plan™ which provides comprehensive cover incorporating risk management, insurance and claims management.

The Spill Protect Plan™ is designed as a complete environmental impairment management solution to provide:

- Expert advice on risk assessment and incident prevention in your business process.
- Immediate response to any environmental incidents.
- Access to insurance specialists who will handle all the legalities and often complex paperwork related to your claims.

Benefits of the Spill Protect Plan:

- Hazcall24: 24-hour Call Centre and Incident Management Control Room.
- Guaranteed immediate response.
- National response footprint by ISO certified skilled responders.
- Live updates – accurate incident record keeping.
- Spill Tech discounts offered on related services.
- Compliance reporting support.
- Risk management – training, emergency exercises, spill kits.
- Responders have a vested interest in the cleanup.
- Wide range of cover with VAPS Fleet.

VAPS HCV is an innovative vehicle Insurance Underwriter specialising in Heavy Commercial Vehicle (HCV) Insurance, Motor Fleet and other Value Added Insurance products.
